Old World, NEW VIBE

David Sutherland has an eye for spotting fresh talent and a history of collaborating with regional designers to produce furnishings exclusive to the showroom. To celebrate 35 years in the biz, Sutherland joined forces with Oklahoma City-based Sees Design, producing a collection of

bench-made upholstered seating called 1818. The craftsmanship is Old World and the lines are cleaned-up classic, but the vibe is decidedly now, attributed to the new generation of Sees, represented by Ross and Corbin See (pictured above). davidsutherlandshowroom.com
