A Cutout Above

| By *Connie Dufner* |

We're positively charged about negative space! Eye-opening accessories and home furnishings make a style statement much like the inimitable words of comedian Jerry Seinfeld in describing his "show about nothing." We're intrigued by the irresistible combination of what is and what is not. From the peekaboo arms on the Audrey sofa by Shine to the architectural O of Hudson Valley Lighting's crystal and aged brass lamp to the lacy border of Made Goods' Vega mirror, these newcomers definitely make the cut. ▲
